

Curriculum Vitae

VIKTORIA BODNAROVA

PROFESSIONAL EXPERIENCE

EURAXESS Links North America Regional Representative

Born in Slovakia, Viktoria Bodnarova graduated from the Metropolitan University in Prague, Czech Republic in 2008 having completed a Master's degree in International Relations and European studies. Right after her studies she started to work at the Academy of Sciences of the Czech Republic as a project manager and a national coordinator of the Czech EURAXESS Network.

During 5 years (2008-2013) of working there, her main responsibilities were setting up a national network, administering national as well as European projects, communicating with national authorities regarding international mobility and providing practical support to researchers and their family members moving to the Czech Republic. She was a national expert in the Working Group for Human Resources and Mobility, EURAXESS Network Management Working Group and for the questions of Long Term Permit for the Purpose of Scientific Research.

Viktoria has participated as a speaker in several European and non-European events dealing with international mobility, career development of researchers and entry conditions for third country national researchers. Since 2013 she is working as the EURAXESS Links Regional Representative for North America (USA and Canada), informing the community of researchers of all nationalities based in North America (over 5700 members) about the funding and career opportunities the European Research Area (ERA) has to offer and being their first contact point before their move to Europe.
